

DANCING THROUGH CHANGE

A KEYNOTE LIVE FLAMENCO PERFORMANCE BY ANA LUCIA JARDIM

Change is happening at breakneck speed. The conventional leadership approaches of planning, pushing hard and being a hero no longer work. Leaders need to intuit the future, be quick on their feet and move people from the inside out - just like a dancer in a live flamenco performance.

Join Ana Lucia Jardim, a former corporate leader, an immigrant and a flamenco dancer, as she reveals how to elevate your leadership by embracing the practices and mindset of an artist.

Drawing on 20 years' experience as a leader in global organizations, where she guided thousands of individuals through transformational change, and her background in dance, Ana Lucia will share how she uses rhythm, authentic expression and somatic intelligence to navigate change in life and business.

It's more than a talk- it's a transmission. You will get a visceral experience of what dancing through change looks and feels like by witnessing and interacting with Ana Lucia and her flamenco musicians. Prepare to leave transformed and inspired to liberate the artist inside yourself!

IF YOU ARE A LEADER WHO WANTS TO...

- transform yourself and your organization
- help people navigate change
- become an innovative leader

...THEN THIS KEYNOTE IS FOR YOU!

YOU WILL LEARN HOW TO:

- speed up change without the overwhelm
- use rhythm to stay in sync with your team
- quickly decide and respond in the moment
- recover from mistakes to keep moving forward

Ana's talk imprinted the idea of a liberated leader that senses and responds freely, not just to the current business needs, but also to those we anticipate. We were inspired and I plan on working with Ana again!
